

Broadway Avenue
CLOSED
over the Boise River
January – Fall 2016

Overnight lane closures, flagging on Broadway Avenue at Myrtle and Front this weekend (June 23-26)

June 20, 2016

Overnight lane closures will be in place on Broadway Avenue **Thursday through Sunday** (June 23-26). Each night, from **8 p.m. to 6 a.m.**, drivers can expect:

- Broadway Avenue will be **restricted to one lane in each direction** between Myrtle and Front streets.
- The **signals will be turned off** on Broadway Avenue at the Front and Myrtle intersections.
- **Flaggers will direct traffic** through the Front and Myrtle intersections when the signals are not operating.

Lanes are being restricted at night this weekend so crews can install electrical conduits underneath Broadway Avenue. The conduits are part of infrastructure for new pedestrian signals that will begin operating at the Front and Myrtle intersections later this summer.

ITD reminds drivers to leave early and plan extra time for travel as summer roadwork gears up on Broadway Avenue.

In July, crews will pave and improve Broadway Avenue between Myrtle and Front Streets. Through mid-summer, drivers can expect to see lane closures, heavy equipment and increased construction activity on Broadway Avenue.

This work is part of the Broadway Bridge Replacement Project, which encompasses rebuilding Broadway Avenue between University Drive and Front Street.
